PROFESSIONAL SUMMARY

Final-year BCA (Honours) student with hands-on experience in social media content design and digital content management. Skilled in creating and publishing visual content using Adobe Photoshop and Illustrator for a local business, with foundational proficiency in HTML, CSS, JavaScript, Python, and SQL. Currently expanding into full-stack web development through React.js, the MERN stack, and Machine Learning, and actively seeking an entry-level opportunity to apply both design and development skills in a professional setting.

WORK EXPERIENCE

Social Media Content Designer | Sundoor

Jan 2025 – Nov 2025

- Designed engaging social media graphics and promotional content that strengthened brand presence across platforms.
- Conceptualized original visual designs aligned with business requirements and campaign goals.
- Edited and optimized images using Adobe Photoshop and Illustrator to ensure consistent visual quality.
- Published and scheduled content across social media platforms while maintaining brand consistency.

INTERNSHIP

Green Skills Intern | 1M1B (1 Million for 1 Billion)

- Contributed to a Waste Management System project focused on sustainability initiatives.
- Gained exposure to website development while collaborating with a cross-functional team.
- Developed teamwork, communication, and project management skills through structured deliverables.
